

ALPS in partnership with **Europ Assistance** are pleased to introduce the latest innovation in **Road Rescue** benefits.

THE FREE VEHICLE HEALTH CHECK

Whilst breakdown assistance can cover the costs and inconvenience arising from a vehicle breakdown:

PREVENTION IS BETTER THAN CURE.

The Free Vehicle Health Check from ATS Euromaster only takes around 30 minutes and is available at any of its nationwide network of service centres.

WHAT'S CHECKED?

1. Tyre Tread Depth -	The tread depth is measured on all the tyres (including the spare if access is available).
2. Tyre Condition -	The tyre is checked for visible damage.
3. Tyre Pressure -	The tyre pressure is checked on all tyres (including the spare if access is available). Where necessary, the pressure is adjusted.
4. Brake Inspection -	A front visual brake inspection is carried out.
5. Battery -	The battery is checked for residual capacity and visually inspected (without removing it) for obvious damage.
6. Exhaust -	A visual inspection of the exhaust and its mountings is carried out to check for physical damage, leaking joints and corrosion. Where fitted, the physical condition of the catalytic converter is checked.
7. Shock Absorbers -	A 'bounce' test is carried out whilst the vehicle is on the ground and they are visually inspected for signs of leaking, obvious damage or corrosion.

During the term of your roadside assistance policy all parts and services supplied by ATS Euromaster will be subject to a discount of 10%*. Simply quote reference 'Car Check' and your policy number.

BOOK YOUR VEHICLE HEALTH CHECK TODAY

Vehicle Health Checks are FREE at ATS Euromaster. Regular vehicle checks can help prevent both breakdowns and accidents due to avoidable faults, meaning additional peace of mind while motoring.

Just call ATS Euromaster on 0800 601060
and select option 1 (Tyres)
from the menu to find your nearest centre.

* This offer cannot be used in conjunction with any other offer. Terms and conditions apply.
